Re: Septic System Installation Inspection
584 Sourdough Road
Woodland Park, Colorado

Reference) Septic Design by Entech Engineering, Inc.
dated March 31, 1997, Job No. 14437.1

Dear Mr. Karbe:

As requested, personnel of Entech Engineering, Inc. inspected the septic system installation at the above site. Reference is made to the percolation test report by Hepworth-Pawlak Geotechnical dated August 31, 1996, Job No. 396132. Site inspections were made on May 15 and 21, 1997.

The piping components, pipe, absorption field, and cover material were placed in substantial compliance to the design by Entech Engineering, Inc. A distribution box was used to split the flow between the existing septic field and the new septic field. The infiltrators, manifold and distribution box were installed level. The field consisted of 3 rows of 18 infiltrators. A plastic T-connection was used to split the flow to the infiltrators.

We trust that this has provided you with the information you required. If you have any questions or need additional information, please do not hesitate to contact us.

Respectfully Submitted,

ENTECH ENGINEERING, INC.

Re: Partial Inspection of Individual Sewage Disposal System at 6-12-68 Lot 6 Lot 11 1-12-69 a.k.a. 584 Sourdough Road

Dear Hewlett Packard Co.;

Our records show that the Sewage Disposal System at the above referenced location has not received final approval from this office. Enclosed please find a copy of the partial inspection that was done at the above referenced location and what is required for a final inspection. There will be a \$42.00 reinspection fee.

The Teller County Sewage Disposal Regulations as well as Colorado Revised Statutes 25-10-111.(6) require final approval of the Sewage Disposal System prior to occupancy of any residence.

Please contact this office immediately.

Sincerely,

Tom Wood, ScD
Environmental Health Officer

10/29/97 Jeff from H.P. called - he thought engs. had sent us his approval, he will get & bring to us.
