 See attached design package

This system shall consist of a two compartment septic tank holding 1000 gallons, with 200 linear feet in 2-3 trenches, 36 inches wide and 24 inches deep.

Also required:  
☐ 1. Curtain Drain  
☐ 2. Flow Diversion Valve  
☐ 3. Sewage Pump  
☐ 4. Other: \_\_\_\_\_

All installers of subsurface sewage disposal systems must hold a valid annual license from the Tennessee Department of Health and Environment.

The recipient of this permit agrees to construct or have constructed the above described system in accordance with 68-13-401 et. seq. and The Regulations To Govern Subsurface Sewage Disposal Systems. If any part of the system is covered before being inspected and approved, it shall be uncovered by the recipient of the permit at the direction of personnel of the Department of Health and Environment. Any cutting, filling or alterations of the soil conditions on the aforementioned property after this day may render this approval null and void.

X Doug Lowery (Signature of Recipient) Date 4-15-92  
 Issued at Laurieburg Tennessee, in Marshall County  
 By Don Odum Env. Spec. Date 4-15-92  
(Name and Title) (Date of Issue)

This permit is valid for 3 years from date of issue.

This is a permit to construct and is not intended to imply approval of any work proposed or completed on this lot.
